Examiner's Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

Referring to claims 1-12, the prior art searched and of record neither anticipates nor suggests in the claimed combinations, selecting a vertex, for locating an output point in an output color space, as an interim output provided by the threshold value, through an inverse probability distribution function derived from the probability densities of the vertices of the tetrahedrons derived from the source color space.

Referring to claims 13-21, the prior art searched and of record neither anticipates nor suggests in the claimed combinations, selecting a point, for locating an output point in an output color space, from a plurality of sample points in a source color space provided by the threshold value, through an inverse probability distribution function derived from the weighting coefficients of the points in the source color space.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Scott A Rogers whose telephone number is 703-305-4726. The examiner can normally be reached on Monday-Thursday 6:00am-6:00pm.
